CONTENTS OF VOLUME 1

ARTICLES AND SHORT COMMUNICATIONS

ABDELHAMID, SAMI NAGUIB. Transformation of observations in stochastic approximation.....	1158-1174
ABRAHAM, BOVAS AND MALIK, HENRICK J. Multivariate logistic distributions.....	588-590
ALAM, KHURSHEED. A family of admissible minimax estimators of the mean of a multivariate normal distribution.....	517-525
ALAM, KHURSHEED. On a multiple decision rule.....	750-755
ANBAR, DAN. On optimal estimation methods using stochastic approximation procedures.....	1175-1184
ANDERSON, T. W. An asymptotic expansion of the distribution of the Studentized classification statistic.....	964-972
ANDERSON, T. W. Asymptotically efficient estimation of covariance matrices with linear structure.....	135-141
ANDREWS, D. F. A general method for the approximation of tail areas.....	367-372
ARNOLD, STEVEN F. Application of the theory of products of problems to certain patterned covariance matrices.....	682-699
ATWOOD, CORWIN L. Sequences converging to D -optimal designs of experiments.....	342-352
BARANCHIK, A. J. Inadmissibility of maximum likelihood estimators in some multiple regression problems with three or more independent variables.....	312-321
BASAR, TAMER AND MINTZ, MAX. On a minimax estimate for the mean of a normal random vector under a generalized quadratic loss function.....	127-134
BERK, ROBERT H. Some asymptotic aspects of sequential analysis..	1126-1138
BHATTACHARYA, P. K. AND MALLIK, ASHIM. Asymptotic normality of the stopping times of some sequential procedures.....	1203-1211
BHATTACHARYYA, B. B., SUH, M. W. AND SEN, P. K. Limiting behavior of the extremum of certain sample functions.....	297-311
BICKEL, P. J. On some analogues to linear combinations of order statistics in the linear model.....	597-616
BICKEL, P. J. On the asymptotic shape of Bayesian sequential tests of $\theta \leq 0$ versus $\theta > 0$ for exponential families.....	231-240
BICKEL, P. J. AND ROSENBLATT, M. On some global measures of the deviations of density function estimates.....	1071-1095
BIRNBAUM, Z. W. AND VINCZE, I. Limiting distributions of statistics similar to Student's t	958-963
BLACKWELL, DAVID. Discreteness of Ferguson selections.....	356-358

BLACKWELL, DAVID AND MACQUEEN, JAMES B. Ferguson distributions via Pólya urn schemes	353-355
BOHRER, ROBERT. An optimality property of Scheffé bounds	766-772
BROOKS, R. J. The choice of variables for prediction in curvilinear multiple regression	506-516
BROWN, L. D. AND PURVES, R. Measurable selections of extrema	902-912
BURDICK, DAVID L. A best sequential test for symmetry when the probability of termination is not one	1195-1199
CHEW, MILTON C., JR. On pairing observations from a distribution with monotone likelihood ratio	433-445
COHEN, ARTHUR AND STRAWDERMAN, WILLIAM E. Admissible confidence interval and point estimation for translation or scale parameters	545-550
COHEN, ARTHUR AND STRAWDERMAN, WILLIAM E. Admissibility implications for different criteria in confidence estimation	363-366
CONOVER, W. J. Rank tests for one sample, two samples, and k samples without the assumption of a continuous function	1105-1125
COVER, THOMAS M. On determining the irrationality of the mean of a random variable	862-871
DAS GUPTA, S. AND GIRI, N. Properties of tests concerning covariance matrices of normal distributions	1222-1224
DAWID, A. P. AND STONE, M. Expectation consistency and generalized Bayes inference	478-485
DEO, CHANDRAKANT M. Some limit theorems for maxima of non-stationary Gaussian processes	981-984
DEWET, T. AND VENTER, J. H. Asymptotic distributions for quadratic forms with applications to tests of fit	380-387
DEY, A., KULSHRESHTHA, A. C. AND SAHA, G. M. On a new type of m -class cyclic association scheme and designs based on the scheme	985-990
DUMOUCHEL, WILLIAM H. On the asymptotic normality of the maximum likelihood estimate when sampling from a stable distribution	948-957
DURBIN, J. Weak convergence of the sample distribution function when parameters are estimated	279-290
DUTTWEILER, D. L. The mean-square error of Bahadur's order statistic approximation	446-453
DYKSTRA, R. L., HEWETT, JOHN E. AND THOMPSON, W. A., JR. Events which are almost independent	674-681
EATON, MORRIS L. AND PERLMAN, MICHAEL D. The non-singularity of generalized sample covariance matrices	710-717
FABIAN, VÁCLAV. Asymptotically efficient stochastic approximation; the RM case	486-495
FABIAN, VÁCLAV. Estimation of the derivative of the logarithm of a density	557-561

FABIUS, J. Two characterizations of the Dirichlet distribution.	583-587
FEDERER, W. T. AND RAKTOE, B. L. Balanced optimal saturated main effect plans of the 2^n factorial and their relation to (v, k, λ) configurations.	924-932
FERGUSON, THOMAS S. A Bayesian analysis of some nonparametric problems.	209-230
FOX, BENNETT L. AND ROLPH, JOHN E. Adaptive policies for Markov renewal programs.	334-341
FU, JAMES C. On a theorem of Bahadur on the rate of convergence of point estimators.	745-749
FUJIKOSHI, YASUNORI. Monotonicity of the power functions of some tests in general MANOVA models.	388-391
GAVIN, T. AND KUSHNER, H. J. Extensions of Kesten's adaptive stochastic approximation method.	851-861
GHOSH, MALAY. Nonparametric selection procedures for symmetric location parameter populations.	773-779
GHOSH, MALAY AND SEN, PRANAB KUMAR. A law of iterated logarithm for one-sample rank order statistics and an application.	568-576
GIRI, N. AND DAS GUPTA, S. Properties of tests concerning covariance matrices of normal distributions.	1222-1224
GLESER, LEON JAY AND PAGANO, MARCELLO. Approximating circulant quadratic forms in jointly stationary Gaussian time series.	322-333
GODAMBE, V. P. AND THOMPSON, M. E. Estimation in sampling theory with exchangeable prior distributions.	1212-1221
GOOD, I. J. The joint probability generating function for run-lengths in regenerative binary Markov chains, with applications.	933-939
GORDON, F. S. Characterizations of populations using regression properties.	114-126
GRAMS, WILLIAM F. AND SERFLING, R. J. Convergence rates for U -statistics and related statistics.	153-160
GUPTA, B. C. AND TRACY, D. S. Multiple products of polykays using ordered partitions.	913-923
HABERMAN, SHELBY J. Log-linear models for frequency data: sufficient statistics and likelihood equations.	617-632
HANSON, D. L., PLEDGER, GORDON AND WRIGHT, F. T. On consistency in monotonic regression.	401-421
HETTMANSPERGER, THOMAS P. AND TRYON, PETER V. A class of nonparametric tests for homogeneity against ordered alternatives.	1061-1070
HEWETT, JOHN E., DYKSTRA, R. L. AND THOMPSON, W. A., JR. Events which are almost independent.	674-681
HIRAKAWA, KOSABURO. Moments of order statistics.	392-394
HOEFFDING, WASSILY. On the centering of a simple linear rank statistic.	54-66
HOLLAND, PAUL W. Covariance stabilizing transformations.	84-92

HOLM, STURE. The asymptotic minimax character of sequential binomial and sign tests.	1139-1148
HOLST, LARS. Some limit theorems with applications in sampling theory.	644-658
HUBER, PETER J. Robust regression: Asymptotics, conjectures and Monte Carlo.	799-821
HUBER, PETER J. AND STRASSEN, VOLKER. Minimax tests and the Neyman-Pearson lemma for capacities.	251-263
HWANG, F. K. Constructions for some classes of neighbor designs.	786-790
JAQUETTE, STRATTON C. Markov decision processes with a new optimality criterion: Discrete time.	496-505
JOHN, J. A. Factorial experiments in cyclic designs.	188-194
JOHNSON, B. R., JOSHI, V. M. AND LAND, C. E. A note on two-sided confidence intervals for linear functions of the normal mean and variance.	940-943
JOSHI, V. M., JOHNSON, B. R. AND LAND, C. E. A note on two-sided confidence intervals for linear functions of the normal mean and variance.	940-943
JUREČKOVÁ, JANA. Central limit theorem for Wilcoxon rank statistics process.	1046-1060
KAGEYAMA, SANPEI. On μ -resolvable and affine μ -resolvable balanced incomplete block designs.	195-203
KAGEYAMA, SANPEI. On the inequality for BIBDs with special parameters.	204-207
KHAN, RASUL A. On sequential distinguishability.	838-850
KHAN, RASUL A. On some properties of Hammersley's estimator of an integer mean.	756-762
KLOTZ, JEROME. Statistical inference in Bernoulli trials with dependence.	373-379
KRAUTH, J. An asymptotic UMP sign test in the presence of ties.	166-169
KULLDORFF, GUNNAR. A note on the optimum spacing of sample quantiles from the six extreme value distributions.	562-567
KULSHRESHTHA, A. C., DEY, A. AND SAHA, G. M. On a new type of m -class cyclic association scheme and designs based on the scheme.	985-990
KUSHNER, H. J. AND GAVIN, T. Extensions of Kesten's adaptive stochastic approximation method.	851-861
LAI, TZE LEUNG. Optimal stopping and sequential tests which minimize the maximum expected sample size.	659-673
LAND, C. E., JOHNSON, B. R. AND JOSHI, V. M. A note on two-sided confidence intervals for linear functions of the normal mean and variance.	940-943
LANDERS, D. AND ROGGE, L. On sufficiency and invariance.	543-544

LECAM, L. Convergence of estimates under dimensionality restrictions.....	38-53
LIN, PI-ERH AND TSAI, HUI-LIANG. Generalized Bayes minimax estimators of the multivariate normal mean with unknown covariance matrix.....	142-145
LORDEN, GARY. Open-ended tests for Koopman-Darmois families... ..	633-643
MAAG, URS R. The asymptotic expansion of the distribution of the goodness of fit statistic V_{NN}	1185-1188
MACQUEEN, JAMES B. AND BLACKWELL, DAVID. Ferguson distributions via Pólya urn schemes.....	353-355
MAKOWSKI, GARY G. Laws of the iterated logarithm for permuted random variables and regression applications.....	872-887
MALIK, HENRICK J. AND ABRAHAM, BOVAS. Multivariate logistic distributions.....	588-590
MALLIK, ASHIM AND BHATTACHARYA, P. K. Asymptotic normality of the stopping times of some sequential procedures.....	1203-1211
MC ELIECE, ROBERT J. AND POSNER, EDWARD C. Hiding and covering in a compact metric space.....	729-739
MINTZ, MAX AND BASAR, TAMER. On a minimax estimate for the mean of a normal random vector under a generalized quadratic loss function.....	127-134
MUCCI, ANTHONY G. Differential equations and optimal choice problems.....	104-113
NAGAO, HISAO. On some test criteria for covariance matrix.....	700-709
NARVARTE, J. A. AND SCHUSTER, E. F. A new nonparametric estimator of the center of a symmetric distribution.....	1096-1104
OKAMOTO, MASASHI. Distinctness of the eigenvalues of a quadratic form in a multivariate sample.....	763-765
O'REILLY, FEDERICO J. AND QUESENBERRY, C. P. The conditional probability integral transformation and applications to obtain composite chi-square goodness-of-fit-tests.....	74-83
PAGANO, MARCELLO AND GLESER, LEON JAY. Approximating circulant quadratic forms in jointly stationary Gaussian time series.....	322-333
PARK, C. J. The power series distribution with unknown truncation parameter.....	395-399
PERLMAN, MICHAEL D. AND EATON, MORRIS L. The non-singularity of generalized sample covariance matrices.....	710-717
PFANZAGL, J. Asymptotic expansions related to minimum contrast estimators.....	993-1026
PFANZAGL, J. AND WEBER, J. Nonlinear operators and sufficiency... ..	183-187
PHADIA, E. G. Minimax estimation of a cumulative distribution function.....	1149-1157

PHILIPPOU, A. N. AND ROUSSAS, G. G. Asymptotic distribution of the likelihood function in the independent not identically distributed case.....	454-471
PIERCE, DONALD A. On some difficulties in a frequency theory of inference.....	241-250
PLEDGER, GORDON, WRIGHT, F. T. AND HANSON, D. L. On consistency in monotonic regression.....	401-421
POLLAK, MOSHE. On equal distributions.....	180-182
POSNER, EDWARD C. AND MCLELIECE, ROBERT J. Hiding and covering in a compact metric space.....	729-739
PURI, M. L. AND SEN, P. K. A note on asymptotically distribution free tests for subhypotheses in multiple linear regression.....	553-556
PURVES, R. AND BROWN, L. D. Measurable selections of extrema....	902-912
QUESENBERY, C. P. AND O'REILLY, FEDERICO J. The conditional probability integral transformation and applications to obtain composite chi-square goodness-of-fit tests.....	74-83
RAGHAVACHARI, M. Limiting distributions of Kolmogorov-Smirnov type statistics under the alternative.....	67-73
RAGHAVARAO, DAMARAJU. Method of differences in the construction of $L_2(s)$ designs.....	591-592
RAKTOE, B. L. AND FEDERER, W. T. Balanced optimal saturated main effect plans of the 2^n factorial and their relation to (v, k, λ) configurations.....	924-932
RAMAKRISHNAN, M. K. An alternative proof of the admissibility of the Horvitz-Thompson estimator.....	577-579
REISS, ROLF-DIETER. On the measurability and consistency of maximum likelihood estimates for unimodal densities.....	888-901
ROBERTSON, TIM AND WRIGHT, F. T. Multiple isotonic median regression.....	422-432
ROBINSON, J. The large-sample power of permutation tests for randomization models.....	291-296
ROGGE, L. AND LANDERS, D. On sufficiency and invariance.....	543-544
ROLPH, JOHN E. AND FOX, BENNETT L. Adaptive policies for Markov renewal programs.....	334-341
ROSENBLATT, M. AND BICKEL, P. J. On some global measures of the deviations of density function estimates.....	1071-1095
ROUSSAS, G. G. AND PHILIPPOU, A. N. Asymptotic distribution of the likelihood function in the independent not identically distributed case.....	454-471
ROY, ROCH. Estimation of the covariance function of a homogeneous process on the sphere.....	780-785
SAHA, G. M., KULSHRESHTHA, A. C. AND DEY, A. On a new type of m -class cyclic association scheme and designs based on the scheme.....	985-990

SAW, JOHN G. Expectation of elementary symmetric functions of a Wishart matrix.....	580-582
SCHAAFSMA, WILLEM. Paired comparisons with order-effects.....	1027-1045
SCHEFFÉ, HENRY. A statistical theory of calibration.....	1-37
SCHUSTER, E. F. AND NARVARTE, J. A. A new nonparametric estimator of the center of a symmetric distribution.....	1096-1104
SCHWARTZ, RICHARD. Two examples of invariant Bayes procedures.....	551-552
SEN, A. K. AND SRIVASTAVA, M. S. On sequential confidence intervals based on Wilcoxon type estimates.....	1200-1203
SEN, PRANAB KUMAR. On fixed size confidence bands for the bundle of filaments.....	526-537
SEN, P. K., BHATTACHARYYA, B. B. AND SUH, M. W. Limiting behavior of the extremum of certain sample functions.....	297-311
SEN, PRANAB KUMAR AND GHOSH, MALAY. A law of iterated logarithm for one-sample rank order statistics and an application..	568-576
SEN, P. K. AND PURI, M. L. A note on asymptotically distribution free tests for subhypotheses in multiple linear regression.....	553-556
SERFLING, R. J. AND GRAMS, WILLIAM F. Convergence rates for U -statistics and related statistics.....	153-160
SHARMA, DIVAKAR. Asymptotic equivalence of two estimators for an exponential family.....	973-980
SHORACK, GALEN R. Convergence of reduced empirical and quantile processes with application to functions of order statistics in the non-i.i.d. case.....	146-152
SRIVASTAVA, M. S. AND SEN, A. K. On sequential confidence intervals based on Wilcoxon type estimates.....	1200-1203
STIGLER, STEPHEN M. The asymptotic distribution of the trimmed mean.....	472-477
STONE, M. AND DAWID, A. P. Expectation consistency and generalized Bayes inference.....	478-485
STRASSEN, VOLKER AND HUBER, PETER J. Minimax tests and the Neyman-Pearson lemma for capacities.....	251-263
STRAWDERMAN, WILLIAM E. Proper Bayes minimax estimators of the multivariate normal mean vector for the case of common unknown variances.....	1189-1194
STRAWDERMAN, WILLIAM E. AND COHEN, ARTHUR. Admissible confidence interval and point estimation for translation or scale parameters.....	545-550
STRAWDERMAN, WILLIAM E. AND COHEN, ARTHUR. Admissibility implications for different criteria in confidence estimation.....	363-366
STROUD, T. W. F. Noncentral convergence of Wald's large-sample test statistic in exponential families.....	161-165

SUGIURA, NARIAKI. Asymptotic non-null distributions of the likelihood ratio criteria for covariance matrix under local alternatives.....	718-728
SUH, M. W., SEN, P. K. AND BHATTACHARYYA, B. B. Limiting behavior of the extremum of certain sample functions.....	297-311
SZYNAL, DOMINIK. An extension of the Hájek-Rényi inequality for one maximum of partial sums.....	740-744
THOMPSON, M. E. AND GODAMBE, V. P. Estimation in sampling theory with exchangeable prior distributions.....	1212-1221
THOMPSON, W. A., JR., DYKSTRA, R. L. AND HEWETT, JOHN E. Events which are almost independent.....	674-681
TONG, YUNG LIANG. An asymptotically optimal sequential procedure for the estimation of the largest mean.....	175-179
TRACY, D. S. AND GUPTA, B. C. Multiple products of polykays using ordered partitions.....	913-923
TRYON, PETER V. AND HETTMANSPERGER, THOMAS P. A class of non-parametric tests for homogeneity against ordered alternatives.....	1061-1070
TSAI, HUI-LIANG AND LIN, PI-ERH. Generalized Bayes minimax estimators of the multivariate normal mean with unknown covariance matrix.....	142-145
UTHOFF, VINCENT A. The most powerful scale and location invariant test of the normal versus the double exponential.....	170-174
VENTER, J. H. AND DEWET, T. Asymptotic distributions for quadratic forms with applications to tests of fit.....	380-387
VINCZE, I. AND BIRNBAUM, Z. W. Limiting distributions of statistics similar to Student's t	958-963
WAGNER, T. J. Deleted estimates of the Bayes risk.....	359-362
WEBER, J. AND PFANZAGL, J. Nonlinear operators and sufficiency...	183-187
WEISS, L. AND WOLFOWITZ, J. Maximum likelihood estimation of a translation parameter of a truncated distribution.....	944-947
WIJSMAN, R. A. On the attainment of the Cramér-Rao lower bound	538-542
WIND, SERGE L. An empirical Bayes approach to multiple linear regression.....	93-103
WOLFOWITZ, J. AND WEISS, J. Maximum likelihood estimation of a translation parameter of a truncated distribution.....	944-947
WRIGHT, F. T., HANSON, D. L. AND PLEDGER, GORDON. On consistency in monotonic regression.....	401-421
WRIGHT, F. T. AND ROBERTSON, TIM. Multiple isotonic median regression.....	422-432
YOHAI, VICTOR J. Asymptotically optimal Bayes sequential design of experiments for estimation.....	822-837
ZAMIR, SHMUEL. On the notion of value for games with infinitely many stages.....	791-796

ZIDEK, JAMES V. Estimating the scale parameter of the exponential distribution with unknown location.....	264-278
---	---------

NOTES

BERK, ROBERT H. Acknowledgment of Priority and Correction to "Consistency and asymptotic normality of MLE's for exponential models".....	593
BROWN, L. D. Correction to "Admissible estimators, recurrent diffusions, and insoluble boundary value problems".....	594-596
ENNS, E. G. Correction to "The optimum strategy for maximising the probability of obtaining the random variable nearest to an arbitrary real number".....	400
KADANE, JOSEPH B. Correction to "A moment problem for order statistics".....	797
KHATRI, C. G. Corrections to "Conditions for Wishartness and independence of second degree polynomials in normal vector" and "Further contributions to Wishartness and independence of second degree polynomials in normal vectors".....	991
STEIGER, W. L. Correction to "A best possible Kolmogoroff-type inequality for martingales and a characteristic property".....	400
